

Fellowship of the Ringtails (Lemurs: A Saga)

The kingdom of Madigaska is in turmoil. The King has died under suspicious circumstances and now his Queen has usurped the throne. The only remnant of the last ruler is an illegitimate orphan. Born many miles away, and raised by a peaceable fishing tribe, she knows little of her heritage, her destiny. But with the fierce Hunter, Noir, on her trail, what hope does she have? Set in an alternate world Madagascar, where the dominant life forms are lemurs with a level of technology equal to primitive tribes, Lemurs: A Saga contains true elements of Malagasy history and culture, intermingled with a heavy dose of pure fantasy. It is, indeed, epic fantasy, with lemurs.
