

Clinical Biochemistry: Endocrinology

Endocrinology is an aspect of Clinical Biochemistry (Chemical Pathology) important in Clinical Practice and Advanced Chemical Pathology at the Postgraduate Level. This Book runs through basic aspects of the course. The main author, Late Professor Christopher Adesuyi Adejuwon had lectured, trained and interacted with Clinical students of the Rockefeller University, Manhattan, New York; University of Ibadan, Obafemi Awolowo University, Olabisi Onabanjo University and the University of Maiduguri in Nigeria, West Africa.
