

## The Shadowfiles 3 Curatorial Education

This third edition in the series is a result of the Curatorial Programme at De Appel in Amsterdam, which contributes significantly to the Netherlands as a focus of research and expertise on curating. The 24 comprehensive essays herein map the history of curatorial programmes worldwide and suggest possible directions for the future of this now greatly expanded field. Personal testimonials of Curatorial Programme alumni underscore one of its most important aspects: how knowledge is transferred to the students and how this experience shapes the practice of emerging curators. With contributions by Saskia Bos, Ann Goldstein, Hans Ulrich Obrist, Seth Siegelaub and others.
