

## Kenyas Public Sector procurement challenges

This book provides a systematic and detailed information on what ails public sector procurement not only in Kenyas Public Sector but in Most Developing Nations in Africa. Public Sector Procurement is the single most important way in which tax payers money is spent for purposes of infrastructure development and for the benefit of the general public through improved service delivery. This calls for specific attention and scrutiny with a view of enhancing efficiency to ensure value for money. Finally, it is important for policy makers to understand the challenges bedeviling public sector procurement. It only then that they will be in a position to draw sound procurement policies for the enhancement of efficiency in the public sector procurement.
