

# Challenging Concepts in Cardiovascular Medicine: Cases with Expert Commentary

This case-based learning book details 25 challenging cases in cardiovascular medicine covering all subspecialty areas of cardiology. It is designed to be used by trainees but each case is supported by the commentary of a renowned expert in the field, allowing readers to improve their own management of these patients. As the reader works through each case there are Clinical Tips, Learning Points and Landmark Trial Summaries to enhance the learning process along with the Expert Commentary, providing an inside track on how the experts approach these types of challenging cases.
