

German Folk Arts of New York State (Albany Institute of History and Art)

The folk industry and beautiful crafts of German settlers in New York State come to light in this richly illustrated volume. Following the devastating Thirty Years War, waves of Germans migrated to the New York region in the first decade of the seventeenth century. The settlers brought with them a rich, enduring tradition of painted furniture, carved objects, and embroidered cloth, folk arts that continued for at least five generations, well into the late nineteenth century. Featured here are some of the most striking and well known of those craft traditions: the famous painted wooden chests, everyday tools, paintings, book covers, textiles, decorated boxes, chairs, and other distinctively rendered furniture. The detailed description and analysis of these craft traditions offer a powerful and unique glimpse of German settlers in New York State and reveal their long-standing influence on the history of the region. Mary Antoine de Julio is a historian and the author of *What a Rich Reward! Betsey Reynolds Voorhees and the Collection of Her Handiwork*.
