

The Rise of Nykloneci in His Service to the King

King Hertfa is working to maintain his empire against the forces of the Dark Lords. Nykloneci has determined he is going to serve the king in whatever way he can. He knows he can do great things for the king if only he can get his chance. His father Herbance has become an elder to the king, and with this position comes great and awesome responsibilities. Nykloneci is trying to figure out a way to surpass his father in his service to King Hertfa. Nykloneci has entered the service of the king and has attained the position of a water bearer to the kings warriors. He knows he can do more, but now he must wait for his time to come. The chance seems like it will never arrive for Nykloneci until the three day war begins. Tanas has gathered several of the tribal leaders, and they have determined if they come against the king together they can take over the empire. This massive battle begins and the kings warriors are terribly outnumbered by the forces which have joined under the leadership of Tanas. King Hertfa begins to wonder what chance his warriors will have against such overwhelming odds. King Hertfa makes his plans with one of his secrets as the focus of what he needs to remain in control of the empire. This is only the beginning and there is always more to come; look for the next installment of the adventures of Nykloneci in Nyklonecis Rise to the General of the Kings Army.
