

# Dark Fey: Standing In Shadows (Volume 2)

Gairynzvl escaped captivity among the DemonFey who had abducted him as a child through a daring act of treason and was rescued by Light Loving Fey. Now, he wants to return into the dark realm of The Reviled to attempt a rescue of the innocent childfey trapped there. It will take more than one Fey to breach the borders of The Uunglarda and to slip past the legions of Dark Fey who abide there. It will take magic and strength, courage and military strategy and it will shake the foundations of everything The Fey of The Light have accepted as truth for thousands of years, but Gairynzvl knows the secret ways in and out of the dark realm; he is able to open portals and through his gifts of telepathic empathy and he can find the childfey standing, waiting, in the shadows. Slipping into the darkness through darkness is easy. Escaping out again with terrified childfey is another matter. If they are captured his band of liberators will pray for death long before it comes and their success could spark full scale war, unleashing the barbaric hatred and viciousness of The Reviled upon the peace-loving Fey of The Light. Can Gairynzvl convince the Fey of the Light to allow him to return to the Uunglarda, the realm of The Reviled? Who will join him to aid the Innocent childfey trapped in the realm of shadows and fear? And Will the Fey of the Light risk a savage war in order to rescue them?
