

## Where Darkened Clouds Roll: Godsforge Book 1 (Volume 1)

The debut novel from Sebastian Peters, a young author from rainy old England! For fans of George R.R. Martin, Joe Abercrombie, Brent Weeks etc... Edward Salt, military hero now fugitive, wants to stay alive despite the best wishes of those he once stood beside. Now an enemy of the cause he's spent his life fighting for, he's been summoned by a man who should want him dead. With Logan Vedders assassins at every fork in the road, his once enemies are the only thing keeping him alive. Across the sea in the ruins of the First Empire stands Kern Cracknut and his followers, trying to carve out a new life in the past. Nomads and dreams will guide them on their way, trusting in the word of a stranger from Beyond The Map. In the icy mountains of the North, Nicko Snow lives alone, a barbarian among the peaks. Until he's convinced otherwise, that is. With the persuasion of a foreign Magi, he returns to his home, only to take up arms against the slavers that plague the frozen plains. In the island nation of Vermilla, Rowan Godsbreath, famed assassin and firethrower, is starting to attract more attention. The wrong kind of attention. A sorceress with a past darker than the void calls upon him to reap revenge on those who killed her children, and to sow the seeds of retribution. At every edge of the map the light is changing, as the Dawn is come again. But as the wise men know, for the sun to rise in the east, it must first set in the west. Orphans and assassins, Magi and turncloaks, each of them a thread within the weave of the world.
