

## How Art Made the World: A Journey to the Origins of Human Creativity

In the late nineteenth century, the first discoveries of prehistoric painting were greeted with incredulity. How could there have been such deft and skillful artists in the world over 30,000 years ago? Noted art historian Nigel Spivey begins with this puzzle to explore the record of humanity's artistic endeavors, and their impact on our own development. *How Art Made the World*, in conjunction with the PBS miniseries, reveals how artists from the earliest caveman to the most studied Renaissance master have grappled with the same questions in their work: What is a man? Why must we die? Is there a God? With the help of vivid color illustrations of some of the world's most moving and enduring works of art, Spivey shows how that art has been used as a means of mass persuasion, essential to the creation of hierarchical societies, and finally, the extent to which art has served as a mode of terror management in the face of our inevitable death. Packed with new insights into ancient wonders and fascinating stories from all around the globe, *How Art Made the World* is a compelling account of how humans made art and how art makes us human.
