

The Colors of Catalonia

For those who visit this ancient kingdom, and those who can do so only in spirit, I heartily commend Virginie Raguenauds delightful book, which brings to life the inspiring spirit of Catalonia. Count Nikolai Tolstoy, Patrick O'Brian: The Making of the Novelist Step into lively Mediterranean villages of French and Spanish Catalonia as seen through the eyes of Matisse, Picasso, Dali?, Maillol, Chagall, O'Brian, and many legendary twentieth-century painters, sculptors, and writers. The Colors of Catalonia offers a unique behind-the-scenes look at how Catalonias landscape, culture, and people are linked to three major art movements Fauvism, Cubism, and Surrealism and countless literary careers. Extensive research, conducted in both French and English, reveals intimate and fascinating detail in the lives of artists and writers who found new ways to express themselves and the world around them. Through exhibition catalogs, diaries, memoirs, and personal letters between artists, their families, and their art dealers, this extraordinary guidebook brings to light the critical role this idyllic region played in the development of modern art. The Colors of Catalonia is perfect for art lovers who want to leave the crowded museums of Paris and Barcelona, visitors looking for a splendid region to discover, and art students who want to be inspired. The Colors of Catalonia fascinates with its stories of the artists who found their inspiration there, and it beautifully captures the essence of a region for a new generation of travelers.
