

## Lectures on Surgery (Classic Reprint)

Excerpt from Lectures on Surgery  
The criticism of the reader who looks for a complete treatise on Surgery in this volume may be disarmed when he learns that this is only a portion of a surgical course, which includes other teachers and varied departments. The author, indeed, has also lectured clinically, to a great degree, for thirty years; and these didactic lectures are meant to be only outlines of some surgical subjects. In publishing these unwritten lectures, the author desires to give this expression of his obligation to Dr. Edwin II. Allen, Medical Stenographer.

Preface to the Second Edition  
Some decided changes in practice have been alluded to in this second edition of the Lectures on Surgery; otherwise the text remains as before. The additional papers require no comment from me. About the Publisher
