

Vineyard - Grapes, Stems, & Leaves in Color Photographs

This book is a collection of color images taken in a vineyard. They display the beauty of grape vines shortly before harvest. Grapes are plump and juicy as they hang in the sun. Leaves show vibrant color and sinuous veins. Trunks and stems twist and turn as if growth was an agonizing process. Abstract shapes and forms emerge in addition to the natural life of the vines. The images reveal the art of nature unfolding in colorful, sensual forms and shapes.
