

One Stop LeaderShop Workforce Development Combination Pack (One Stop LeaderShop - A Managers Guide to Business Operations)

This paperback book contains Practices #3, #4, #5 and #6 in a series (of 14) titled One Stop LeaderShop A Managers Guide to Business Operations. One Stop LeaderShop is a manager training program, designed to build marketable skills in the five leadership principles and fourteen business practices every manager needs to know. Whether you are a new manager or an experienced manager or even an aspiring manager the One Stop LeaderShop manager training program will teach you how to drive the performance of your team and your company. It will get you noticed. Filling vacancies can be an expensive proposition, both in terms of time and money. In One Stop LeaderShop Practice 3: Sourcing & Recruitment you will learn how to make the most of your hiring efforts. The first critical step is to create a profile of the position you want to fill. Know exactly what attributes you are looking for. Next, you'll canvas your network of sources. Where are you likely to find the best candidates? Well give you some tips on screening and selection. Finally, you will learn how to properly welcome your new employees and help them succeed. As a manager, you have two main objectives for education in the workplace: first, build the capabilities of your team and second, build your own capabilities. In One Stop LeaderShop Practice 4: Skills & Training, you will learn to achieve both. Practice 4 will give you lots of cost-efficient training solutions for your associates: independent study, in-classroom training, on-the-job training and some well-chosen external training opportunities. Of course, the training solution for you and your managers is right in front of you the One Stop LeaderShop manager training program! One Stop LeaderShop Practice 5: Performance Management is all about setting goals for your employees and rewarding them for goal achievement. In this Practice, you

will learn the four essential components of performance management: goal setting, coaching, performance measurement and rewards. Threaded throughout the instruction, you will also discover our system of workplace values: open communication, fairness & consistency and pay-for-performance. What do the FORTUNE 100 Best Companies to Work For have that your company doesn't have? In One Stop LeaderShop Practice 6: Employee Satisfaction, you will learn how to make your company a great place to work. An employee satisfaction initiative is a very public display of contemporary leadership. Beware: it begins with management commitment and ends with management accountability. The worst mistake you could make is to hint at the prospect of workplace improvements and then not deliver results. We won't let that happen. Practice 6 will take you step-by-step through the process of finding and addressing the most-wanted workplace improvements. We realize, as you should, that your Human Resources professionals dictate your company's personnel policies and controls. However, today's managers are expected to play an active role in workforce administration. The One Stop LeaderShop Workforce Development Practices will prepare you to partner effectively with your Human Resources professionals. We'll teach you to take ownership, but stay in bounds. The One Stop LeaderShop series is purposely designed as a self-directed manager training program. You decide when, where and how to study. Read it on your own or as part of a team. Either way, if you are interested learning new management skills or advancing the skills you already have, this program is perfect for you. Find this volume and the entire One Stop LeaderShop series in e-book format at Amazon.com. Also available on CD ROM is a companion collection of blank .doc and .xls templates referenced in all fourteen One Stop LeaderShop practices. Search One Stop LeaderShop Workbook. Turn your learning into action right away!
