

The draughtsmans assistant; or, drawing made easy: wherein the principles of that art are rendered familiar, in instructive lessons ... Neatly By the author of The artists assistant.

The draughtsmans assistant; or, drawing made easy: wherein the principles of that art are rendered familiar, in instructive lessons ... Neatly By the author of The artists assistant.

The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. The eighteenth-century fascination with Greek and Roman antiquity followed the systematic excavation of the ruins at Pompeii and Herculaneum in southern Italy; and after 1750 a neoclassical style dominated all artistic fields. The titles here trace developments in mostly English-language works on painting, sculpture, architecture, music, theater, and other disciplines. Instructional works on musical instruments, catalogs of art objects, comic operas, and more are also included. ++++The below data was compiled from various identification fields in the bibliographic record of this title. This data is provided as an additional tool in helping to insure edition identification:++++British LibraryN061183Author of The artists assistant = Carington Bowles. In this edition, the watermark is undated, and plate 29 has imprint: Printed for R. Sayer.London : printed for Robert Sayer, [1787?]. [2],16p.,plates ; 4
