

About Music, and What It Is Made O A Book for Amateurs (Classic Reprint)

There was an old pianoforte teacher, who said one day to his pupil, You have brought me the notes of your piece to-day; next time you must bring me the music of it. Children may learn the A, B, C the notes of it. Girls and boys may learn the harmony and the tunes or the grammar. It is for the grown musician, the real lover or amateur of music, to know the whole beauty the beauty of the whole, in fact, the music. The best amateur should love that which is best in the thing that he loves, and the best is the highest. Not the artifice, not the science, but something much greater the art of it. And the art of anything is the completion, or true balance of all the parts which make the whole. That is the music of it. (Typographical errors above are due to OCR software and dont occur in the book.)
