

The Fall of Nex (Hunters, Ghosts and Shadows) (Volume 1)

The world is ever turning and those of us caught in the spin can only watch as time slips through our fingers and gathers in the distant reaches of space. We dwindle like stars in the darkness, burning as brightly as we can for the time we have but collapse under the pressure of our own existence. This series will lead you on the spiraling path of all that is not what it seems but instead is what simply was not meant to be. The truths, although many, are much harder to live with than the lies we have created. For those who rise against, this is their story; as it has been far longer than we have existed. They are the voices that call out to you, the shadows in the night, the monsters in the closet, the guardian angels that shield you, the ghosts that haunt you and the world of beyond. They are the vampires, werewolves, ghouls and witches. They are the unseen and never was and they are tired of suffering. Journey with us into their world and yours and see what they have seen. Only then will you know if you are truly brave enough to dream.
