

Classics To Jazz * Bach Edition

The Classics to Jazz collection published by Santorella Publications features some of the most popular masterworks from four of the greatest musical geniuses in history. Each piece is first presented in its original form and then on the following page, it is arranged with a Jazz feel. The Classics to Jazz series is a great educational tool for the advancing pianist making the transition from Classical studies to the exciting world of Jazz Piano. These curiously irresistible melodies arranged & edited by Jonathon Robbins will grab you as soon as you begin to play. Fun and exciting, these pieces will become the most played tunes in your library. This particular edition features the following works of Johann Sebastian Bach (1685-1750). Presented with a twist and certainly not for the faint of heart. Enjoy!
