

## Worries are to be forgotten: Negativities need to be discarded (worries and negativities) (Volume 4)

ABOUT THE BOOK Worries are to be forgotten-Negativities need to be discarded is very unique book specially written for those who are very negative shaky and weak in their character and who always intend to live a negative life.. It is said that negative thinking is purely our own matter.

Though it has got something to do with our external circumstances. But there are certainly some positive factors within us that keep us happy and there is something negative within us also which keep us unhappy. Happy living through positive and good thoughts, is nothing more than that of living a normal life free from undue pressures, problems and tensions. We must therefore forget our worries and negativities and enjoy our lives happily If we want to live a good and happy life then we need to get rid of the negativity within us which makes us unhappy. Negative approach always complicates the problems and increases unhappiness. Most of us do the fatal mistake of looking outwards for happiness rather than looking inwards. Be positive, be strong, be bold and be courageous you are sure to find the feeling of happiness within you. Even if we are having a bad day, think of some good things that may come our way, either later that day, tomorrow, next week, or next moment. When everything seems to be beyond our control, its almost too easy for us to slip into the grasp of negativity and unhappiness. To avoid sadness we must strive to abolish this sort of thinking through the power of thinking positively and generate the feeling of happiness within us. The art of sweet living is not a complicated kind of art difficult to learn rather a simple art of happy living feeling well, eating well, and thinking well. What we need to do is just to tune up our mind to enjoy every moment of life and let the sweet happiness follow us. This is something that needs to be looked into thoroughly. We need to focus on the

positive aspects of lives, rather than on the negative setbacks and enjoy every moment of life happily and merrily. Enjoy your life with cheerful talks. Be happy and cheerful. We must remember that happy living is the reward of sweet and positive thinking. We ought to remember, only the positive thinking can bring happiness in our lives. If we cannot think positively, you cannot live happily. Be our own teacher or adviser we ought to look everything with a positive angle. Let us find something good even in most critical moments of our life and let us make positive thinking the basis of our happy living.
