

Snoqualmie Pass

Situated in the Cascades about 50 miles east of Seattle, Snoqualmie Pass is intersected by the most heavily used route connecting eastern and western Washington. In the 1800s, use of the old Native American trail by explorers, cattlemen, and miners created a need for a wagon road. A railway and highway followed, and Snoqualmie Pass quickly developed into an all-season recreational paradise with over a half million visitors annually. Known for easy access to snow sports and the Alpine Lakes Wilderness area, nighttime ski operations, and the world-famous terrain of Alpentel, Snoqualmie Pass is also a community of neighborhoods with both full-time and part-time residents who share a unique mountain lifestyle.
